

HYVE Medical

HYVE 100

HYVE 200

The HYVE

The HYVE was born out of a vision to create innovative outdoor spaces where agile working practices integrate seamlessly with personal wellbeing.

Simple – a modular design which maintains the inherent classic beauty, core strength and functionality

Versatile - fully fitted out to enable a healthier outdoor lifestyle

Eco friendly – sustainable materials and methods to care for the wellbeing of the environment too

Quick - short delivery times and off-site manufacture for minimum install impact

Complete – managing every detail from start to finish.

HYVE 100

An iconic hexagon style which stands apart from the norm. Designed as individual spaces which can be simply clustered or interlinked together.

HYVE 200

The classic square cornered space, available in many sizes.

HYVE 300

Combining the best of both worlds – large open areas with smart contemporary corners.

HYVE Medical

This HYVE Medical Space is designed to provide rapid extra bed spaces for overstretched hospitals and care facilities.

With hygienic wipeable internal surfaces and full power and M&E connections this modular pod is quickly installed in parking areas or other open spaces to create a new outdoor ward for temporary or permanent use.

Making use of outside space for increased care.
